

#1241: HyperMesh - Delete Setting Files

Product: HyperWorks

Product Version: HyperWorks 12.0 or above

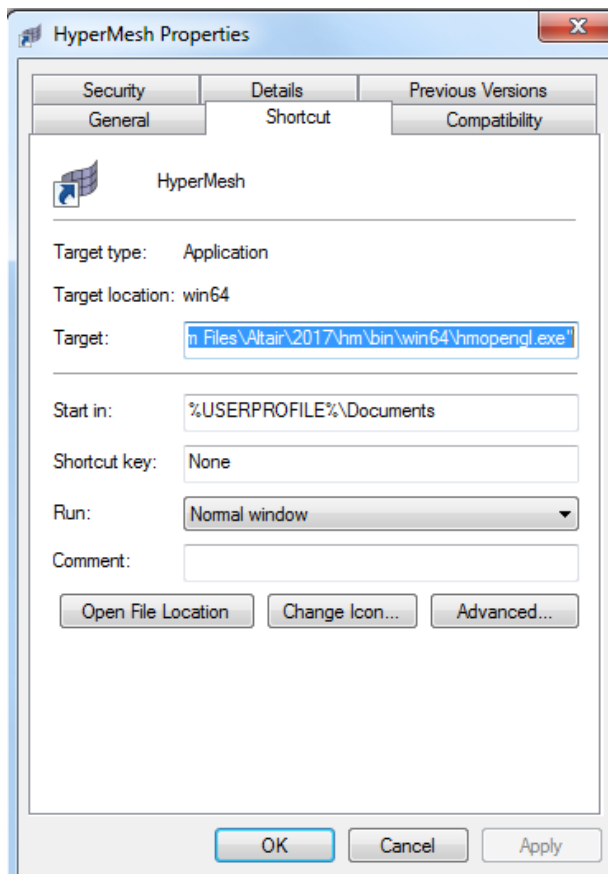

Topic Objective

Delete setting files in HyperMesh

Topic Details

Majority of the Hypermesh support issues are resolved by deleting setting files.

Please locate your working directory by right click on hm icon > properties > start in field

In this location cleanup below files.(You will find them in My Documents by default)

Hmmenu.set,Hmsettings.tcl,Command.cmf,.Altair folder,Hwsettings.tcl
